### Excellent Glove

★★★★★ Posted 3 weeks ago

**Pros:** Great looking glove, excellent tackiness and durability.

**Cons:** None, glove was a little too large for my hands, but if a ML was available that would do the trick.

Overall the Talon is a great glove. When looking for a great glove, it's all about the fit to the hand, the feel and grip on the club and lastly comfort. The Talon glove had two of the three going for it, grip and comfort, on the size I tested. I believe if the glove fit my hand properly, it would have hit all three of these with ease. In regards to playability, the glove held up over several consecutive rounds with little to any notice of being used. ### Talon Golf Glove

**Pros:** The tackiest gloves on the market. They're made of a more breathable material than that of any other glove that I've tried. Keeps you hands cool.

They feel like they form to your hand and they don't retain the stretch that comes from a range session or a round. All of the gloves I have used in the past don't seem to fit until they have been broken in. This is not the case for the Talon glove. Right out of the box it fits perfect and so far has stayed that way. So far I have 63 hole, 4-6... [\(read more\)](#)

**Pros:** Exceptional form-fitting, ultra-flexible design delivers top notch performance.

**Cons:** There is nothing I dislike about this product.

Again, I would like to thank Rod Dunlap, CaddyDaddy Golf, TST and @mvvmac for the opportunity to review this product. After using the new Talon glove I really like it. The material used provides an amazing grip on many types of golf grips. One thing I've noticed is the glove size is larger than others. I ordered a large and the fit is just a tad oversize compared to other manufacturers. The glove material is flexible and will stretch to various hand sizes. I've shown this glove to friends and they were impressed. For testing purposes, I used it on an old club with an old worn grip. AMAZING !!! With a Cabretta glove, I could barely...
